Well Deserved

The Praise That Comes from Thankful
Barre People.

One kidney remedy never fails.
Barre people rely upon it.
That remedy is Doan's Kidney Pills.
Barre testimony proves it always re-
liable.
Mrs. Frank Jones, 106 South Main
street, Barre, Vt., says: "About five
years ago, when living in Worcester, I
began to suffer from kidney trouble and
had such terrible pains in my
back at times that I could
hardly get about. If I arose
too quickly after stooping, sharp twinges
darted through my hips and I often had
severe attacks of dizziness. It
was impossible for me to sleep well, and
during the day I felt tired and worn
out. Being advised to try Doan's Kidney
Pills, I did so, although I had not much
faith in them. After using them for
a few days, I found that they were
helping me, and I continued taking them
until the pains in my back had entirely
disappeared. The other symptoms of my
trouble were also greatly relieved and
I felt better in every way."
The above statement was given by
Mrs. Jones on November 10, 1905, and
on October 1, 1908, Mrs. Jones again
gave the following: "I still keep Doan's Kid-
ney Pills in the house and use them
when in need of a kidney remedy, al-
ways with the best of results. I am glad
to re-recommend Doan's Kidney Pills, in
return for what they have done for me."
For sale by all dealers. Price 50 cents.

BAIT FOR SARDINES.

Bretons Coax the Tiny Fish With
Salted Eggs of the Cod.
Sardine fishing forms the chief in-
dustry of Brittany. In an average
season the Brittany sardine fisher-
men catch 100,000,000 to 150,000,000
pounds of sardines, for which they
receive anything from £300,000 to
£600,000, while the shore industries de-
pendent upon this fishery give em-
ployment to 20,000 other persons, mostly
women and girls. So important is
the sardine that in many communities
in Brittany every person is directly or
indirectly supported by it, and the failure
of the fish to come means ruin,
starvation and death to many people
in the more isolated places.
Sardines are found on the coast of
Brittany throughout the year, but
fourish in greater abundance in sum-
mer and autumn. As many as 100-
000 have been taken at one time in
one net from one school. One remark-
able feature of sardine fishing in Brit-
tany is the enormous amount of bait
which is used. The bait in general use
is the salted eggs of the codfish, and
it is estimated that the Breton
fishermen pay £70,000 every year to
Norway for cod roe for use as bait.
The casting of the bait, on the pro-
per use of which a great deal of the suc-
cess of the fishing depends, is always
done by the captain of the boat, who
stands on a little platform in the stern
and while directing the movements of
the boat and the manipulation of the
net throws the bait to attract the fish
to the surface and around the boat.
When the fish are on one side of the
net or on the other his next move is
to cast the bait in such a way as to
cause them to rush against the net and
thus become gilled.—London Tit-Bits.

About the State

Announcement is made that the di-
rectors of the Fort Dummer Mills had
let the contract for the construction
of the new textile mill on Fort Dum-
mer heights in Brattleboro to J. W.
Bishop and Co., of Worcester, Mass., at
20 days he had built all over his head.
On July 2 he writes, "and today my hair
is as thick and luxuriant as any on
could wish." Newbro's Hairpiece works
on an old principle and with a new dis-
covery—destroy the cause and you re-
move the effect. Hairpiece destroys the
germ that causes dandruff, falling hair,
and finally baldness, so that with the
cause gone the effect cannot remain.
Curls falling half at once and a new
growth starts. Sold by leading
druggists. Send for sample. — sample

Norman R. Chase, who owns a farm
near Woodstock on the Pomfret road,
is framing a new building which will
be one of the largest dairy barns in
the county if not in the state. The
main barn will be 50x120 feet, and the
stable, running at right angles with it,
making a letter "C" of the structure,
40x82 feet. The stable will hold 40
cows, and there will be plenty of light
and good ventilation.

Burlington is to have an army of
young home gardeners this coming
spring and summer, and some time
next fall it is expected that the upper
floor of the city hall building will be
blown forth with a display of flowers
and vegetables that have been cultivated
entirely by the school children of the
city. The work is to be conducted
under the joint direction of the civic
committee of the Kiwanis Club and H. S.
Howard, secretary of the Burlington
Commercial club, with the assistance
of the teachers in the schools and the
co-operation of parents.

Vaino Jaatinen, the immigration in-
spector who has been stationed at
Newport during the past few months,
has gone to his official station at Ni-
agara Falls, the vacancy in the local
force having been filled permanently by
the appointment of J. H. Bartlett to
this branch of the service. Hugh W.
Hastings, of Orleans, has been appoint-
ed a deputy collector of customs to
fill the vacancy caused by the trans-
fer of Mr. Bartlett to the immigra-
tion service. Mr. Hastings is located
at North Troy, Madison Blisbee, who
was located at that port, having been
transferred to Newport.

A plumber at work in the back room
of the Chinese laundry in Woodstock
last week found a fuse-like arrange-
ment that seems to have been intended
to fire the building. It failed to
work, and a first-class blaze was averted.
A piece of twisted cloth partly
saturated with oil lay on the floor, and
one end was charred as if it had been
burned and had failed to burn. The
last occupant of the laundry left sev-
eral months ago disappearing sudden-
ly. A few weeks ago a former land-
lord, Mr. W. H. Hastings, who was in
Ashburnham, Mass., said that the missing
Chinaman told him he left here be-
cause the buildings had burned up.
